## Projects

---

|   |                              |
|---|------------------------------|
| <b>Portfolio Website</b>  | <b>Tucson, AZ</b>            |
| <i>Personal Web Development Portfolio</i>   | February 2025                |
| ● Built a personal portfolio website with <b>React</b> and <b>Bootstrap</b> to showcase web development projects and improve online presence. |                              |
| ● Optimized responsiveness for seamless viewing across all devices.   |                              |
| ● Integrated dark/light mode and a contact form with <b>EmailJS</b> for better user experience.   |                              |
| <b>Web App Game Platform</b>  | <b>Tucson, AZ</b>            |
| <i>University of Arizona - Web Programming Class Final Group Project</i>  | November 2024 – October 2024 |
| ● Developed a Wordle-inspired game with leaderboards to enhance user engagement.  |                              |
| ● Designed backend services with <b>Express.js</b> and <b>MongoDB</b> for smooth game and user data management.                               |                              |
| ● Deployed on <b>DigitalOcean</b> with HTTPS for secure access.   |                              |
| <b>Lemon Restaurant Website</b>   | <b>Tucson, AZ</b>            |
| <i>Meta Front-End Developer Capstone Project</i>  | October 2024 – November 2024 |
| ● Created a responsive restaurant website with interactive features for home, menu exploration, and reservations.                             |                              |
| ● Integrated <b>Google Maps API</b> for seamless location services.   |                              |
| ● Implemented <b>React Router</b> for smooth navigation and user experience.  |                              |

---

## Work Experience

---

|   |                                      |
|---|--------------------------------------|
| <b>University of Arizona, Parking and Transportation Services</b>   | <b>Tucson, AZ</b>                    |
| <i>Parking Event Monitor</i>  | Oct 2024 – Present                   |
| ● Managed parking operations for university events with 10,000+ attendees, ensuring smooth traffic flow and organized space allocation. |                                      |
| ● Directed parking for dozens to hundreds of vehicles per event, assisting special parkers and coordinating with supervisors.           |                                      |
| ● Operated mall gates, controlled parking access, and processed parking transactions while providing customer service.                  |                                      |
| <b>Anyang Manan Police Station</b>  | <b>Anyang, Gyeonggi, South Korea</b> |
| <i>Military Service – Social Service Agent</i>  | Jan 2019 – Nov 2020                  |
| ● Performed alternative civilian service for military duty, assisting in public safety initiatives and crime prevention efforts.        |                                      |
| ● Inspected 200+ safety devices, including CCTV cameras and streetlights, to enhance community security.                                |                                      |
| ● Assisted in safety education events at elementary schools, helping 900+ children learn about traffic and personal safety.             |                                      |
